Wastewater Zero Commitment:
Guidance document
Appendix A: Commitment Statement

Published on 4 June 2021
APPENDIX A: COMMITMENT STATEMENT

This communication confirms [insert company name] has committed to Wastewater Zero. In making this commitment we are aligning our targets, strategies, and actions towards the three pillars of the commitment within our own facilities and facilities of our tier one suppliers. In taking these actions, we are demonstrating our raised ambition to meet SDG target 6.3 and recognize the important role of wastewater management and water reuse in contributing to climate, biodiversity, and water goals.

**ZERO POLLUTION**

By [insert year] we commit to ensuring that 100% of wastewater produced is treated to achieve or exceed relevant regulatory or industry requirements and minimizes the release of priority hazardous substances.

By [insert year] we commit to ensuring that [insert percentage] of our suppliers are compliant with relevant regulatory or industry effluent quality requirements.

**ZERO FRESHWATER**

By [insert year] we commit to ensuring that [insert percentage] of total water use in our own facilities is reused or recycled water.

By [insert year] we commit to ensuring that [insert percentage] of our suppliers have reuse or recycling capabilities.

**LOW-CARBON TREATMENT**

In alignment with our science-based emissions reduction targets made on [insert date] we commit to reducing the emissions associated with treatment and discharge of wastewater by using low-carbon processes.

By [insert year] we commit to ensuring that [insert percentage] of our suppliers have made a science-based emissions reduction target.
